

Permission Form

Information for parent(s)/guardian(s)

We are Cambridge University Press & Assessment, but you may know us as Cambridge. This information sheet and request for parental permission provides further information on the screen recordings and photos taken during a Linguaskill test.

Important:

- The test is designed for adult English language learners.
- Candidates must be at least 16 years old to take the Linguaskill test.
- For remote (non-centre) testing, candidates must be 18 years or older.
- This permission form applies only to candidates aged 16 or 17 taking the test at a test centre.

Candidates are monitored by an invigilator with the support of Artificial Intelligence (AI) using Talview, our invigilation service provider. The invigilation service monitors for any suspicious behaviour or use of additional devices, unauthorised items or access to internet browsers or external AI-based tools. Candidates must not use any AI software or assistance applications (e.g., chatbots, writing aids, or automated translation tools) during the test.

Using the computer's webcam, the AI invigilation service will take a test day photo of the candidate along with screen grabs of the candidate during the test. The screen grabs and recordings are for the purposes of security, transparency and assessment integrity. This information is gathered by Talview in order for us to ensure assessment integrity is maintained and to conduct any necessary follow-up malpractice investigations.

Centre and Cambridge staff will be able to access and review the recording of the test along with the test day photo. Where malpractice is identified the result will be disqualified.

The recording is retained for a period of 6 months.

As Cambridge English is based within the UK, we hold all candidate data in compliance with GDPR and the data protection act 2018. Where the candidate is located in a jurisdiction outside the EU, we also adhere to any local legislation relating to privacy and/or data protection. We ensure all our delivery partners, regardless of their location, also adhere to GDPR and DPA 2018.

All Personal Data will be processed in accordance with Cambridge's Candidate Privacy Notice available on cambridge.org/legal/candidate-privacy-notice

As the candidate's parent/guardian please confirm that you have read and understood what is involved with the recording of the Linguaskill test and the use of Artificial Intelligence.

Name of candidate:

Name of Parent/Legal guardian:

Parent/legal signature:

Date:

Please return the completed form to the Linguaskill centre where the candidate is registered to take the test.
